<sup>\*</sup>Estimated exposure only includes population within the map area.

# Population Exposure

population per 1 sq. km from Landscan

# 95.0° Mawlaik Falam Hakha

#### PAGER content is automatically generated, and only considers losses due to structural damage. Limitations of input data, shaking estimates, and loss models may add uncertainty. https://earthquake.usgs.gov/earthquakes/eventpage/us6000fsrg#pager

#### **Structures**

Overall, the population in this region resides in structures that are vulnerable to earthquake shaking, though resistant structures exist. The predominant vulnerable building types are adobe block with wood and rubble/field stone masonry construction.

## **Historical Earthquakes**

| Date       | Dist. | Mag. | Max       | Shaking |
|------------|-------|------|-----------|---------|
| (UTC)      | (km)  |      | MMI(#)    | Deaths  |
| 2003-07-26 | 258   | 5.6  | VII(96k)  | 2       |
| 1999-07-22 | 301   | 5.2  | VII(859k) | 6       |
| 1984-12-30 | 326   | 6.0  | IX(4k)    | 20      |

Recent earthquakes in this area have caused secondary hazards such as landslides that might have contributed to losses.

## Selected City Exposure

from GeoNames.org

| MMI | City         | Population |
|-----|--------------|------------|
| IV  | Monywa       | 182k       |
| IV  | Shwebo       | 89k        |
| IV  | Pakokku      | 127k       |
| IV  | Myingyan     | 142k       |
| IV  | Sagaing      | 79k        |
| IV  | Mandalay     | 1,208k     |
| IV  | Pyin Oo Lwin | 117k       |
| IV  | Chauk        | 91k        |
| IV  | Meiktila     | 177k       |
| IV  | Mogok        | 91k        |
| IV  | Hakha        | 20k        |

bold cities appear on map.
